Skill View

Explore notable patterns in student performance by utilizing the Skill View section within the Students tab of your **Teacher Dashboard**. Some issue areas may include: Some or many students working on below-grade-level content in the same skill domain; some or many students excelling in specific skills; and pinpointing which students might pair well together based on their skill domain strengths and weaknesses.

Engagement resources

Engage with both individual students and your whole classroom with these fun activities! From goal setting charts to achievement certificates, we have lots of options to extend your student engagement.

Literacy Growth

View a snapshot of your students' growth trajectories through the Literacy Growth section of your **Insights tab**. If you see any "Invalidated" scores (those which were flagged for rushing), remind those students to take their time with the Curioso Skill Scan next month.
